

(a) Device-wide utilization trace

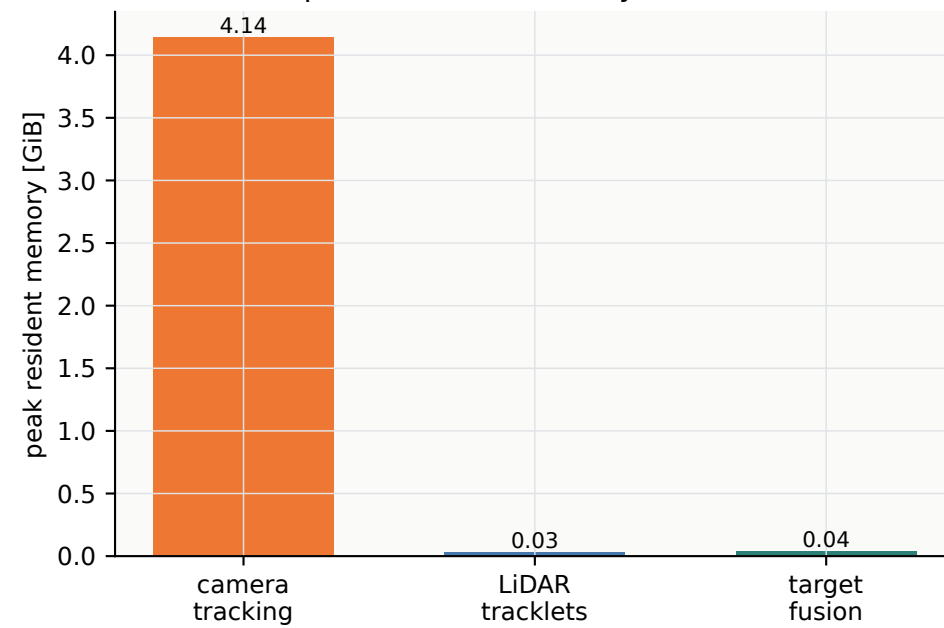

(b) Memory and thermal trace

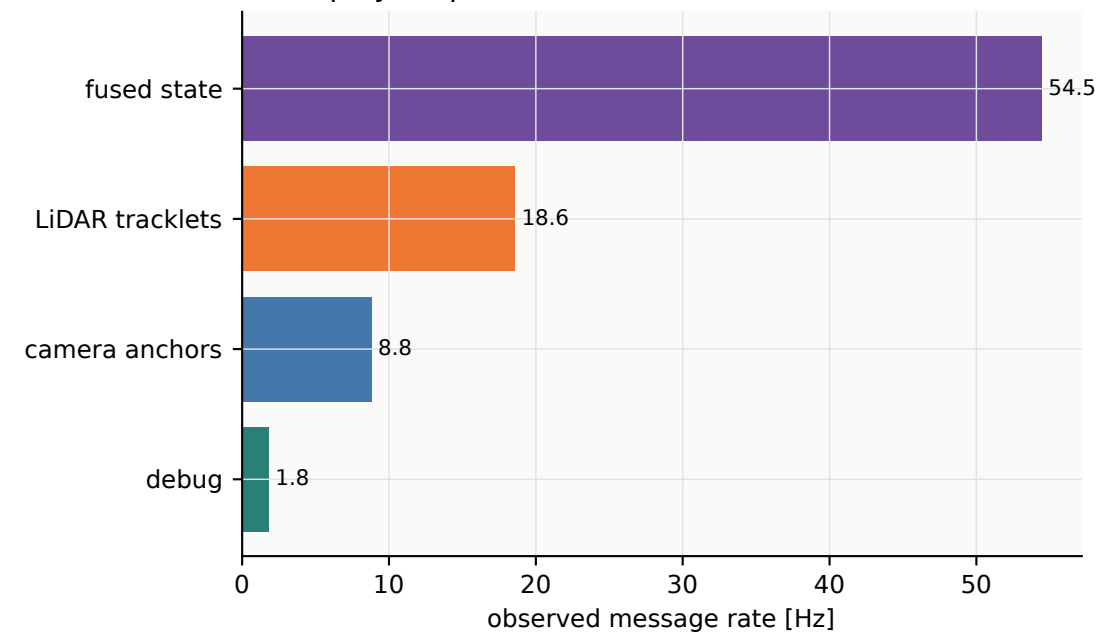

(c) Per-node CPU distribution

(d) Per-node peak resident memory

(e) Replay output rates

REPLAY

human\_tracking\_lidar\_20260706\_145900 · 0.5×

IDLE BASELINE

8 s before algorithm startup

SCOPE

device telemetry includes other host workloads

PROCESS CPU

100% = one logical CPU core
